## PDESGN Architecture

PDESGN Architecture has been established by MSc. Architect Pelin DUSTEGOR, who has experience in architecture over 15 years, since 2018 in Istanbul. She graduated from as bachelor and master degrees of architectural department of Yildiz Technical University in Istanbul / TURKEY. PDESGN Architecture provides to service for architectural and interior design. Also, She gives consultancy service for local regulations about construction in Turkey.

PDESGN Architecture has professional experience about sustainable and ecological design in architecture. She has two achievement about it. Which one of these, 35. Street Project in Izmir. She was sustainability coordinator in the Project and it was taken the first for Breeam interim certificate in Turkey and in Europe. The second one is Casa Lokomotif tiny house which has one room many views with full offgrid system.
